of its name. Down to the very last detail, this new model possesses every quality of enduring serviceability, complete comfort, and distinctive appearance that have always

characterized Buick automobiles.

The new Four-Cylinder Buick, here announced,

is a thoroughbred-a pedigreed car well worthy

The advent of this new Four makes the Buick 1922 line complete. It offers to purchasers of a car of this size all the quality and service that go to make up the name "Buick."

The engine, of course, is of the time-tested Buick Valve-in-Head type. The year-after-year concentration of Buick's engineering skill and experience in building Valve-in-Head motors assures the highest standard of performance obtainable today.

Every other unit is of a quality equal to the power plant. The whole assembly constitutes a perfectly balanced chassis which is of typical Buick construction. The equipment of Cord Tires is merely evidence of the quality which characterizes the entire car.

Two open and two closed body types mounted on the Buick built chassis comprise the new series.

Even the most casual inspection of the details of design and workmanship will reveal that full measure of qualitywhich motorists have learned to associate with Buick.

Obviously a high grade automobile—a genuine Buick production-the prices listed below make this great Four even greater. A value such as this is possible only because of the combination of Buick engineering skill devoted to the one ideal of quality, Buick production facilities developed over nearly a guarter of a century, and Buick's nation-wide distribution and service organization.

The Buick Motor Company is proud of the Buick Four. It has the faith of long experience in this newest addition to its line. It places upon it unreservedly the Buick guarantee carried by every Buick automobile produced. That its confidence is well placed is manifested not only by the keen interest with which motorists have awaited this announcement, but also the advance orders placed by distributors, dealers, and the general public.

After spending a few days among friends in Groton, Rev. George M. Howe, former pastor of the Congregational church, motored with Mr. and Mrs. Ansel M. Shattuck to Williamsville, where Mr. Howe spent a couple of days as the guests of the Shattucks and Mr. and Mrs. George Beach. Wruse, Jr. Mr. Howe enjoyed a long walk through some of Shattuck's woodlots, around the mill and especfally admired the immense tallness and straightness of the trees in the woods, together with many of the beautiful sceneries of rustic nature, of which Williamsville has abundance.

When Ansel M. Shattuck and fam ily Friday night of last week started out for a little auto ride, they encountered a full-grown wildcat chas-ing a rabbit in the public highway within but a few rods of their home and Williamsville Village. The wild-cat apparently heard the approaching car, as he turned in his tracks, raised his head and for a half-minute looked gallon at the machine, after which he speedily jumped the wall and disappeared in the woods. The little incident, however, spared the life of Bonny rabbit, who with a few happy jump Mr. Spados. sought safety in the opposite direction. The wildcat was of the bob-tailed variety and looked to stand about two feet high from ground to

top of head. Last year a half-grown bob-link was killed in Shattuck's woodlot and two years ago a twenty-eight-pound specimen of same variety was killed nearby. The latter, when mounted, measured eighteen inches over the back.

A very pleasant afternoon was en-joyed last Sunday by guests of Harry Floyd at his mother's camp on the hill overlooking, Baddacook pond. Harley-Davidson Prices Reduced

S. 8. 19

August 1st, Harloy-Davidson 1922 rock bottom motorcycle and sidecar rices became offective.

No half way reductions have been made, but substantial cuts to the very owest prices possible.

Only the prices of Harley-Davidson motorcycles and sidecars have been reduced. The characteristic high quality which has distinguished Harley-Davidson as the "World's Best" remains unchanged.

At these low prices, unequalled motorcycle and sidecar values are offered and Harley-Davidson leadership is more emphatically apparent than
